  1. Ester-C®
  2. Xanomax®
  3. Optiberry®
  4. Lyc-o-mato®
  5. Fruits & Greens™
  6. Chromate®
  7. Floraglo®
  8. Regensure®, Glucosamine HCl

\*The Glycemic Index is a numerical Index that ranks carbohydrates based on their rate of glycemic response (i.e. their conversion to glucose within the human body). Glycemic Index uses a scale of 0 to 100, with higher values given to foods that cause the most rapid rise in blood sugar. Pure glucose serves as a reference point, and is given a Glycemic Index (GI) of 100.
